

To Support Logistics Interconnection, JTCC Again Provides Discounted Tariffs

Admin -- 07 July 2023

Jakarta, 6 July 2023 - Tariff discounts will continue on the Cibitung-Cilincing Toll Road (JTCC), especially in order to support the smooth transportation of goods to and from industrial, logistics and seaport areas.

Previously, JTCC was fully operational and initially applied discounted tariffs to support the homecoming and goods flow ahead of and throughout Eid 2023 and extended until June 2023.

"We are still continuing to provide rate discounts starting on July 1, 2023 yesterday. The amount of fare discount on the Cibitung - Cilincing Toll Road is for Class 1 there will be a discount of up to 15% and for Groups 2 & 3 and Groups 4 & 5 there will be a discounted fare of up to 45% and for Section 4, Tarumajaya - Marunda - Cilincing has not yet been applied tariff or free," said the Main Director of PT Cibitung Tanjung Priok Tollways or PT CTP, Ari Sunaryono, in Jakarta, Thursday (6/7).

Ari Sunaryono added, that we will continue to evaluate the amount of tariff adjustments on a regular basis. The implementation of the JTCC toll rate adjustment is a form of Company support to maximize traffic distribution, ensure the smooth and safe flow of goods, as well as a form of service and appreciation from

the Company to road users who will cross the JTCC.
